Listing of Claims:

Claim 1 (Currently Amended): Screen for holding refuse sacks (7) open, ~~characterized in~~ wherein:

~~that~~ the screen (1) is shorter than the refuse sack (7) such that open parts (7b) of the refuse sack (7) can be folded into the screen (1),

~~that~~ the screen (1) is designed to stretch the refuse sack (7), and

~~that~~ a locking device (11) is provided on the screen (1) such that open parts (7b) of the refuse sack (7) can be pressed on said locking device (11).

Claim 2 (Currently Amended): Screen according to claim 1, ~~characterized in~~ wherein:

~~that~~ the screen (1) consists of elastic material and is compressible from a normal shape to a narrower shape,

~~that~~ the refuse sack (7) can be threaded onto the screen (1) or said screen (1) be inserted into said refuse sack (7) when said screen (1) is compressed to a narrower shape, and

~~that~~ the screen (1) can be brought to spring out from its narrower shape to its normal shape and thereby stretch the refuse sack (7).

Claim 3 (Currently Amended): Screen according to claim 2,
~~characterized in that~~ wherein a holding-together member (13) is provided to
hold the screen (1) in its narrower shape.

Claim 4 (Currently Amended): Screen according to ~~any preceding claim,~~
~~characterized in that~~ claim 1, wherein second end portions (1c) of the
screen (1) has at least one handle opening (6) into which parts (12) of the refuse
sack (7) are insertable such that one can get hold of the handle opening (6) in order
to lift and carry the screen (1) and the refuse sack (7).

Claim 5 (Currently Amended): Screen according to ~~any preceding claim,~~
~~characterized in that~~ claim 1, wherein the locking device (11) comprises
pins (11a) which extend outwards from second end portions (1c) of the screen (1)
and against which open parts (7b) of the refuse sack (7) can be pressed preferably
for penetration thereof.

Claim 6 (Currently Amended): Screen according to ~~any preceding claim,~~
~~characterized in that~~ claim 1, wherein the screen (1) in cross section has a
semicircular or substantially semicircular shape.

Claim 7 (Currently Amended): Screen according to claim 1,
~~characterized in that~~ wherein the screen (1) is provided to permit location thereof, with a refuse sack (7) provided thereon, on a support (8) from which refuse shall be moved into the refuse sack (7), such that those parts (12) of the refuse sack (7) which extend between the two longitudinal edges (2, 3) of the screen (1) and which thereby have a planar or substantially planar shape, are situated close to and/or engage said support (8).

Claim 8 (Currently Amended): Screen according to ~~any preceding claim,~~
~~characterized in that~~ claim 1, wherein the longitudinal edges (2, 3) of the screen (1) are designed or include members for preventing damage of the refuse sack (7) by said longitudinal edges (2, 3).

Claim 9 (Currently Amended): Screen according to ~~any preceding claim,~~
~~characterized in that~~ claim 1, wherein a strip (15) can be hooked onto two longitudinal edges (2, 3) of the screen (1) such that said strip (15) extends across an opening (1a) between said edges (2, 3) at second end portions (1c) of the screen (1) and that open parts (7b) of the refuse sack (7) can be folded within said strip (15).

Claim 10 (Currently Amended): Screen according to ~~any preceding claim,~~
~~characterized in~~ claim 1, wherein:

~~that~~ the screen (1) is thin-walled and elastic and consists of
polypropylene or similar material, and

~~that~~ the refuse sack (7) is a plastic bag from which the screen (1) can
be removed and which can be tied up after removal of the screen (1).
